

## Your doctor is there to help find the right treatment for you.

### Your doctor will want to know:

- Your medical history
- What other medications you're on
- Facts about your symptoms
- Information about your lifestyle

### You might also have questions for your doctor:

- Can my symptoms be treated?
- What are the treatment options?
- Will I need to see a specialist?
- Where can I get more information?
- What can you tell me about CIALIS?
- Is CIALIS an appropriate option for treating my condition?
- What kind of results can I expect from using CIALIS?
- How often would I take CIALIS?
- How does CIALIS work?
- What could CIALIS do for me?
- Do I need a prescription to buy CIALIS?
- What options does CIALIS provide?
